Mitchell MacDonald

PROJECTS

AI-Powered Job Finder (https://github.com/shayannikpour/helpmelandajob)

- Developed a full-stack job search platform using Node.js, Express.js, Python FastAPI, and PostgreSQL.
- Integrated AI-powered resume feedback, interview questions, and job recommendations.
- Deployed a multi-service application using DigitalOcean, Nginx, SSL, and API-based AI services.

Information Patient Database (https://github.com/offmitch/patient-details)

- Developed a hematology patient database using PHP, MySQL, HTML, and CSS.
- Implemented role-based access control and secure user authentication.
- Built patient search and management features used by BCIT medical students.

Spray Tanning Website(https://offmitch.github.io/goldenglosstanning/)

- Developed a responsive service website using HTML, CSS, and JavaScript for a tanning business.
- Implemented a booking system with EmailJS and Brevo for real-time email notifications.
- Designed a modern user interface featuring service packages, reviews, and mobile optimization.

EDUCATION

Computer Systems Technology Diploma (January 2024 - January 2026)

— British Columbia Institute of Technology, Burnaby

- Built full-stack web applications using modern development frameworks and databases.
- Specialized in C#/.NET and PHP Laravel through the Web & Mobile option.
- Completed coursework in object-oriented programming, software engineering, APIs, and database systems.

EXPERIENCE

Full Stack Developer (September 2025 - December 2025) — Kinexus Bioinformatics

- Developed website enhancements and resolved bugs using PHP Laravel.
- Improved UI components, application structure, and overall performance.
- Collaborated with a team of developers and stakeholders on production features.

Chef and Shift Leader *(June 2021 – Present) — Sammy J's Bar & Grill*

- Led shifts in a fast-paced, high-pressure restaurant environment.
- Managed inventory, food preparation, and workflow during peak service.
- Trained team members and helped improve operational efficiency.
